Work Experience

Admin & IT Specialist | APR Energy |300MW Pangaon Plant, Dhaka, Bangladesh |Jan 2018 – Dec 2024
- Troubleshot IT issues and managed asset databases, enhancing operational efficiency for a power plant.
- Supported software training and system updates for staff across departments.

Computer Technician | Gaming Internet Café | Riyadh, Saudi Arabia | May 2008 – Aug 2009
- Installed and troubleshooted hardware/software, ensuring reliable system performance for customers.
- Configured network infrastructure and maintained computers for operational uptime.

Projects

Micro Tasker (Feb 2025 -Feb 2025)   Live Link | Frontend | Backend

Micro Tasker is a platform connecting buyers and workers for task-based projects. Buyers post tasks and purchase coins for payments, while workers complete tasks to earn coins, supported by role-based access and a secure payment system.
Features:
- Role-Based Access: Distinct functionalities for admins, buyers, and workers.
- Coin Payment System: Buyers purchase coins via Stripe, and workers withdraw earnings using mobile payment methods (Bkash, Rocket, Nagad).
- Task Management: Buyers create and manage tasks, while workers submit and complete them.

Review Radar (Jan 2025- Jan 2025)   Live Link | Frontend | Backend

Review Radar is a service review platform where users explore services, read and submit reviews, and manage their own content. It features secure authentication and a responsive design for seamless user interaction.
Features:
- User Authentication: Secure login and private routes for adding reviews and services.
- Service Search & Filtering: Search services by title, company, or category with dynamic filters.
- Review System: Users submit and view ratings and reviews for services.

Movie Portal (Jan 2025- Jan 2025)   Live Link | Frontend | Backend

Movie Portal is a web application for discovering, managing, and updating a personal movie collection. Users can explore movie details, curate favorites, and enjoy a responsive interface.
Features:
- Movie Management: Add, update, and delete movies in a personal collection.
- Favorites List: Save and access favorite movies quickly.
- Detailed Insights: View movie genres, ratings, and summaries.
